Paul suggested the following areas for improvement for the Second Annual Flower Festival Criterium. We may want to change the route to make it simpler to control. We need to improve the organization of the finish line and increase the number of places to ten. The course needs to be set up earlier, about two hours prior to the first race. We need a better arrangement for giving out awards and more sponsors. More advance publicity is needed in the form of advertisement in Velonews, posters in bike shops, radio announcements in outlying areas. Finally, we need more volunteers to help stage the race.
